# Company Profile

## REALIZING YOUR DREAMS

# About Us

Passion is the  
key essential  
force that  
drives our  
success.

Our mission is to offer the best landscaping services at an affordable price without sacrificing the quality. We use cutting edge technology to achieve high quality in our landscaping and maintenance projects.

## WHO WE ARE

GreenLife Landscaping holds a strong belief that our contact with nature and the natural environment enriches our lives. With this in mind our works to help the process of experiencing the potential of the outside space.

GreenLife retains a strong sense of style, keeping abreast of international garden design, and landscape architecture and strives to marry strong and exciting design with the nurturing of wildlife and the wider environment.

## WHY CHOOSE US

We are trained to do all the tasks necessary to create an exotic piece of land out of ordinary.

● Latest tools & software

● Advanced Management Tools

● On time Delivery within Budget

● Professional Handymen

## OUR VALUE

---

We bring your  
space that extra  
creativity

We consider creativity to be one of the most important elements of our work. Development of a beautiful landscape demands us to be creative and imaginative. We have extensive knowledge of plants, their colors and textures to guarantee charming color displays.

# Our Services

Our team of professionals provides regular maintenance of your lawn and gardens, and specializes in irrigation services and water management. Our team can design and plant a new landscape, install hardscaping and lighting, and provide erosion and drainage solutions to protect your property and buildings.

## Landscape Maintenance

Our complete landscaping maintenance services, which are available to homeowners, businesses, and organizations throughout Karachi, include the following: Mowing, fertilizing, bed care, mulching, trimming, pruning, irrigation maintenance, lawn aeration, over-seeding, leaf removal, planting, preparation of annual beds, removal of annuals, and tree and shrub care.

## Irrigation Services

We specialize in water management and our irrigation system installation, maintenance, inspection, and repair services can help you ensure that your system is working at maximum efficiency and avoid over or under watering. We are experts at both drip irrigation and spray irrigation systems, and we install and maintain Rainwater Harvest Systems.

## Landscape Installation

Whether starting from bare ground or renovating an existing landscape we can make your vision come to life. In today's water conscious environment there are a number of choices available. Drought tolerant, native plants, low water, low maintenance, deer resistant, and Xeriscape are all concepts we are intimately familiar with at GreenLife Landscaping — and we are ready to help you understand how those ideas can work for you.

## Erosion Control and Drainage

We have experience addressing erosion and drainage problems for municipal, commercial, and residential customers. We can offer a variety of solutions to deal with and resolve your erosion control problems and drainage issues to keep your home and property safe from the damaging effects of water.

## Hardscape Installation and Lighting

We can incorporate hardscaping and lighting into your existing landscape design or help create an entirely new landscaping design for you. We can install patios, retaining walls, outdoor fireplaces, arbors, walkways, and more.

## Landscape Design

GreenLife Landscaping works with a local horticulturists and landscape designers, to provide design services such as plant selection, layout, and oversight from concept to completion. Our designs feature native, low water, low-maintenance, yet elegant, landscapes designed for the many microclimates found our region.

# Description

there's nothing  
more exciting  
than a good  
idea

Landscaping

Water Features

## OVERVIEW

Thank you for considering GreenLife Landscaping for your Landscaping. GreenLife Landscaping provides a full spectrum of services including design, installation, maintenance and seasonal enhancement, to public relations assistance to ensure “they will come, once it’s built.”
